

Crestview Local Schools

2023-2024 Bullying/Harassment Report

Hazing and Bullying in all forms are prohibited in the Crestview Local School District. Crestview Local Board of Education policy JFCF outlines steps that administrators, teachers, and all other district employees will take to prevent and/or stop any planned or ongoing cases of hazing or bullying.

The Crestview Local School District revised our policy to align with requirements in HB 116, also known as the Jessica Logan Act. This act was passed by the Ohio House in 2012. You can read this policy by clicking on the Board of Education/Board Policy on the district website.

In accordance with state law and district policy, a report is prepared for the board president on the number of recorded bullying incidents. That report is also to be posted on the district website. It is included in PDF format in the file list on the District Reports/Notices page.

During the period from **August 2023 through December 15, 2023**, **2** incidents of hazing and/or bullying were reported in the district. Of those reported, **1** was confirmed as defined by Crestview Local Board of Education policy. Crestview Local Board of Education regulation JFCF-R details specific steps that district employees will follow upon learning about any incident of reported hazing or bullying. These incidents were addressed under the steps of this policy.
